August 23, 2021

Dear District Leader,

It has been four years since the Pathways learning experience was introduced to Toastmasters. In that time, we have heard and tracked your feedback, suggestions, and critiques. As we continue to evaluate improvements and other changes, we are excited to announce that a new and improved Level 1 is coming!

Level 1 is the foundation of Pathways, and we wanted to ensure that it provided a strong foundation for all new members as they embark on their Toastmasters journey. The “Evaluation and Feedback” project and the “Ice Breaker,” a beloved Toastmasters tradition, will be joined by two new projects to make up Level 1: “Writing a Speech with Purpose” and “Introduction to Vocal Variety and Body Language.” These new projects will teach basic public speaking skills and should help new members feel less overwhelmed and provide building blocks to expand on as they progress through their path.

“Researching and Presenting,” a project previously found in Level 1, will be repurposed as an elective in Level 3. Please note that the new Level 1 will only be available in paths selected after the launch of these new projects. Paths in progress or already completed will continue with the current Level 1 projects. New projects will only be available in English for the time being, with translated projects coming in the future.

We anticipate having these changes complete before the end of the calendar year. For more updates, make sure you read the monthly Leader Letter. Thank you to those who have shared feedback on Pathways and we hope these new changes provide for a better experience for those that matter the most—our members!

Sincerely,

Education Program Team
Toastmasters International
