Hello Everyone,

I am Kyoko Minamoto, a returning finance manager. I have four-years-experience of Toastmasters now, taking leadership roles, club officers, area director, division director and finance manager.

I would like to make the district finance efficient with the experience of what I learned last term. The district revenue has increased because of increased membership fee. I will support the district to make the best use of the district funds and will take good care of that money in compliance with the policy of Toastmasters.

Just try any roles! I always keep it in mind in Toastmasters. This is the second term serving as finance manager. I will do my best to support the district to develop, enjoying what I am going to learn this term. Thank you.
